Education

Jain University, MCA in Full Stack Development – Bangalore, India

Jan 2025 – June 2026

- GPA: 8.91/10.00

Experience

Front-end Developer, TCS – Bangalore, India

Jan 2025 – Aug 2025

Developed and maintained web applications, focusing on front-end development using React and Node.js.

- Collaborated with cross-functional teams.
- Developed and maintained reusable UI components using React.
- Optimized frontend performance and fixed cross-browser bugs.

Projects

Order Tracking API

RES API for tracking order status in inventory pipelines, built with Python and PostgreSQL

- Engineered a REST API using Python and PostgreSQL, automating status updates for inventory pipelines.
- Optimized PostgreSQL database transaction isolation levels, mitigating race conditions during concurrent high-throughput data updates.
- Built a responsive React front-end, reduced UI re-renders and reduced initial page load time by 17%.

Full-stack Banking Web App

A banking application that allows users to manage their accounts, transfer funds, and view transaction history.

- Designed and normalized a PostgreSQL schema to ensure ACID compliance, reliably handling concurrent transaction flows.
- Implemented secure user authentication and session management using stateless JSON Web Tokens (JWT).
- Developed an interactive client dashboard using React context for state management.

Skills

Languages: JavaScript, Python, TypeScript, SQL, HTML5, CSS3.

Front-end: React, Tailwind CSS.

Back-end / Databases: Node.js, Express, PostgreSQL, MongoDB.

Tools: Figma, Git, Linux, Docker.
